EDUCATION Q&A PANEL

Join us for a live Q&A with professionals in the field as they answer your questions and discuss how to best prepare for career paths in education!

RSVP here: <https://ps.uci.edu/mentors/2021-Mentor-Career-Panel-RSVP>

Panelists:

Christina Vu is a high school math teacher at El Toro High School in Lake Forest, CA. She currently teaches Algebra 1, Algebra 2, and Geometry, mostly 9th-11th graders. In the future, she is considering teaching at the community college-level as well, but enjoys teaching high schoolers at the moment.

Jodye Selco is currently a professor of science education at Cal Poly Pomona. She's currently working with K-12 teachers to improve chemistry education. She was a professor of chemistry at University of Redlands and at Mississippi State University. She completed graduate school at Rice University (physical chemistry) followed by post-doc then teaching.

Tuesday, February 9 at 2 pm via Zoom
