

Compelling Conversations - Air Quality, Climate Change and COVID 19

Friday, May 15, 2020

In this conversation, three experts discussed climate change and air quality during COVID-19. Barbara Finlayson-Pitts (Distinguished Professor of Chemistry and Co-Director of AirUCI, UCI), Steve Davis (Associate Professor of Earth System Science, UCI), Jason Low (Assistant Deputy Executive Officer, South Coast Air Quality Management District) discussed their work and their perspective on the pandemic that has changed all of our lives.
