

Compelling Conversations - Developing COVID-19 Diagnostics

Thursday, April 30, 2020

For our first conversation, we are thrilled to have three experts working at the forefront of COVID-19 diagnostics: John Gerace (President, DiaSorin Molecular), Reg Penner (Chancellor's Professor of Chemistry, UCI) and Greg Weiss (Professor of Chemistry, UCI) to discuss their work and their perspective on the pandemic that has changed all of our lives.
