[The Eddleman Quantum Institute \(EQI\)](#) at the UC Irvine School of Physical Sciences has awarded eleven graduate research fellowships (GRF) for 2023-2024 academic year. The fellowships exist thanks to the generous support from philanthropist [Roy Eddleman](#). The institute stimulates the discovery of new quantum science phenomena through interdisciplinary collaborations in a broad range of scientific endeavors and motivates future generations to study quantum science through education and outreach activities.

- Steven Allison – Faculty Advisor: Maxx Arguilla, UCI School of Physical Sciences, Department of Chemistry
- Steven Crisostomo – Faculty Advisor: Kieron Burke, UCI School of Physical Sciences, Department of Physics & Astronomy
- Emma Frantz – Faculty Advisor: Ilya Krivorotov, UCI School of Physical Sciences, Department of Physics & Astronomy
- Cesar Gallegos – Faculty Advisor: Sasha Chernyshev, UCI School of Physical Sciences, Department of Physics & Astronomy
- Adam Marks – Faculty Advisor: Jesse Wolfson, UCI School of Physical Sciences, Department of Mathematics
- Ahmadreza Rajabi – Faculty Advisor: Filip Furche, UCI School of Physical Sciences, Department of Chemistry
- Mashnoon Alam Sakib – Faculty Advisor: Maxim Shcherbakov, UCI Samueli School of Engineering
- Ian Sequeira – Faculty Advisor: Javier Sanchez-Yamagishi, UCI School of Physical Sciences, Department of Physics & Astronomy
- Joseph (Max) Silvester – Faculty Advisor: Steve White, UCI School of Physical Sciences, Department of Physics & Astronomy
- Omid Tavakol – Faculty Advisor: Thomas Scaffidi, UCI School of Physical Sciences, Department of Physics & Astronomy
- Robert Welser – Faculty Advisor: Luis A. Jauregui, UCI School of Physical Sciences, Department of Physics & Astronomy

The GRFs are awarded annually with nominations being solicited in January.
