Your Girl Scout Troop is invited to the UCI Observatory to:

- See the Moon, Saturn & stars clusters with our telescopes
- Learn how to use a Night Sky Map, identify constellations, and predict their motion of stars across the sky
- Complete the majority of the requirements for the **Sky Search Badge**; girls will have to do three items at home under the supervision of their parents using a computer to complete it

**Who:** Girl Scout Troop #744 led by Jodi Field

**When:** Friday, April 19, 2013, from 7:00-8:30 pm

**Where:** University of California, Irvine, Observatory. The entrance to the Observatory’s gravel driveway is located at the corner of California Ave. & Gabrielino Dr. in Irvine, CA. From the 405 Freeway, go south on Culver Dr., turn right on Campus Dr., turn left on California Ave. and at the intersection with Gabrielino Dr. turn left onto the gravel road that leads out to the Observatory. Please drive slowly on the gravel road and be careful of pedestrians. Parking is free of charge; park perpendicular to the road and fully off the road because we need to keep it clear in case of emergencies.

**Contact Information:** If you need to contact us that evening at the Observatory, our phone number is (949) 824 – 4620.

**Additional Information:** Please dress warmly and bring along a flashlight. There are no bathrooms at the Observatory so please use the bathroom at home before you come. There is a bathroom in the park across the street from the entrance to the gravel road that is open until 10 pm. We look forward to seeing you there!
